12 When the late Miss Ayachampuri was the Lady doctor attached to the Victoria Hospital she requested permission to live outside the Hospital premises, basing her request upon the circumstance that she had served for fourteen years in the hospital premises near the Maternity as the Medical officer in charge of that institution, though the Quarters were inconvenient to her in regards Sanction to her proposal the Senior Surgeon stated as follows

"I beg the honour to state that she may live ~~She~~ outside the hospital premises provided always she remains in the hospital when detailed for duty there (by myself or

day) by the Medical officer in Charge. This however is not to Constitute a precedent The Concession is granted only in Consideration of Miss Ayachamma's long Service and Residence in hospital premises"

13 The ordinary rule is therefore that the Lady doctor attached to the Victoria Hospital should live near the hospital And this is a wholesome rule also. In the interests of the large number of women ~~patients~~ treated in the Victoria Hospital :- as in-patients and out-patients — it is desirable that the Lady doctor should live as near the hospital as possible.

14 But Miss Isac ~~There is no doubt that~~ the would like it inconvenient to live in the compound of the Victoria Hospital And the Question is whether to suit her convenience she may be permitted to live outside the hospital Compound

15 If it is necessary in the public interests that she should live near the hospital, such permission cannot be accorded. Otherwise it may be accorded
